

MAYEN AKECH

Full-Stack Developer · MERN Stack & Python/Flask
mayenakech9@gmail.com · LinkedIn · GitHub · Portfolio · Nairobi, Kenya

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with hands-on experience building and shipping 6+ production web applications across the MERN stack and Python/Flask. Skilled in architecting secure RESTful APIs, implementing JWT authentication, and crafting responsive, accessible frontends. Currently pursuing a BSc in Information Technology at Mount Kenya University (2027). Passionate about clean code, real-world problem solving, and continuous learning.

TECHNICAL SKILLS

Frontend	React · JavaScript (ES6+) · HTML5 · CSS3 · Tailwind CSS · Bootstrap · Vite · Framer Motion
Backend	Node.js · Express.js · Python · Flask · RESTful APIs · JWT Auth · Role-Based Access Control
Databases	MongoDB · PostgreSQL · SQL · Firebase
Tools & DevOps	Git · GitHub · VS Code · Vercel · Netlify · Render · Cloudinary · Webpack · CI/CD Pipelines

PROFESSIONAL EXPERIENCE

Full-Stack Developer | [Freelance & Personal Projects](#) 2023 – Present

- ▶ Designed, built, and deployed 6+ full-stack web applications across the MERN stack and Python/Flask, all live in production with real URLs.
- ▶ Architected secure RESTful APIs with JWT authentication and role-based access control (RBAC), with optimized MongoDB and SQL database queries.
- ▶ Built mobile-first, responsive UIs using React and Tailwind CSS with animated components via Framer Motion.
- ▶ Integrated third-party services including Cloudinary (image management), Leaflet Maps (geolocation), and the GitHub API; shipped a Chrome Extension for article bookmarking.
- ▶ Implemented CI/CD pipelines via Netlify, Vercel, and Render for automated, zero-downtime deployments from GitHub.

FEATURED PROJECTS

Reviwa — Smart Waste Management Platform — reviwa.netlify.app
[React](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [Cloudinary](#) · [Leaflet Maps](#) · [Tailwind CSS](#)

Community-driven waste reporting platform with geolocation-based submissions, interactive maps, an eco-points gamification system, admin analytics dashboard, RBAC, and automated email notifications.

Palmstar — Travel Booking System — palmstar.onrender.com
[Flask](#) · [JavaScript](#) · [Tailwind CSS](#) · [Python](#)

Full-featured travel booking platform with real-time availability for flights and hotels, search filtering, and booking management — demonstrating Python backend capability alongside frontend integration.

EasyPark — Smart Parking Reservation System — easypark-iggj.onrender.com

Python · Flask · JavaScript

Live parking reservation system with real-time slot availability, booking management, and a clean user interface — a practical utility app solving a real urban problem.

Read It Later — Article Bookmark Manager — readitt.netlify.app

React · Node.js · Express.js · MongoDB · Chrome Extension · Cheerio

Full-stack bookmarking app with automatic metadata extraction via web scraping, a companion Chrome Extension for one-click saves, JWT auth, search/filter, and persistent MongoDB backend.

TechBlog — Full-Stack Blog Platform — techblog-zqh.v.onrender.com

Flask · React · Tailwind CSS

Full-stack blog platform with article creation, curation, and a responsive reading experience — built across a Python/Flask backend and React frontend.

EDUCATION

BSc Information Technology | [Mount Kenya University, Nairobi](#)

Expected 2027

- ▶ Specializing in software development, database management, and systems design.
- ▶ Coursework includes modern web technologies, software engineering principles, and systems architecture.

MERN Stack Development Specialization | [Power Learn Project Africa](#)

2025

- ▶ Intensive training in MongoDB, Express.js, React, and Node.js — production-ready apps, Git workflow, testing, and deployment.

CERTIFICATIONS & TRAINING

MERN Stack Development — Power Learn Project Africa

2025 – Present

freeCodeCamp Certifications — freeCodeCamp.org

2022
